

# Installing Maximizer 9 on Windows Vista

- 1 Install Maximizer 9 logged in as a Windows Administrator.

Near the end of the installation, you are prompted with the following message.

- 2 Click **Unblock**.
- 3 Click **Finish** at the end of the installation.
- 4 Once you have restarted your computer, you receive the following error message when you log back into Windows.

- 5 Click **OK**.
- 6 Download the **Pervasive PSQL v9 Service Setup v1.2 utility** from the following Maximizer knowledge base article:  
[http://www.maximizer.com/support/vista\\_steps.html](http://www.maximizer.com/support/vista_steps.html)
- 7 Open the compressed folder you downloaded and double-click **psqlsvsetup.exe**.
- 8 Follow the on-screen instructions using the default values to complete the installation.
